

Case Study for www.lspindeldds.com

Services Delivered:

Submission to 500 Search Engine Friendly Directories and Two Articles to 300 Article Directories

Client:

Dr. Lawrence Spindel

URL:

<http://www.lspindeldds.com>

Client Business:

New York Based Dentistry

Scenario:

The website was nowhere to be found on Google index. Due to Google sandboxing, the site had lost almost all the traffic it was getting. It was then that Dr. Spindel contacted Submit2Please.com to get his site back on Google as it played a very vital role in his professional success.

Actions Taken:

After analyzing the problem, we suggested Dr. Spindel to gain one-way links on an ongoing basis. We suggested him to:

- Get his website submitted to five hundred directories
- Get few articles written and submitted to article directories as they provide quality deep links to a site.

As per his consent, we manually submitted the site to five hundred SEO friendly directories. Our expert in-house content writers wrote two articles on behalf of Dr. Spindel and our submission team submitted them to three hundred article directories.

Ultimate Outcome:

Dr. Spindle's site not only came back in Google index, it came back with a bang. As on 27-Sep-2007, the site (www.lspindeldds.com) features within Top 3 position in Google search results for the very competitive terms "New York dentist" and "dentist New York".

Client Feedback:

Dr. Lawrence Spindel is very happy and contented with our service. Here is his testimonial –

"Thank you for your help. I have been making steady progress on my website over the last 6months in due to your affordable help. My website started coming up on the first page on Google for the competitive search terms. Thanks to your help, I have made faster progress with my goal of being Google worthy!"
